# Sample Problem #1

## Alphabetical Ordering

### Input Description

You'll be given one word per line, all in standard English.

```
almost  
cereal
```

### Output Description

Your program should print the word and if it is in order or not.

```
almost IN ORDER  
cereal NOT IN ORDER
```

# ICPC

- International Collegiate Programming Competition
- Teams of 3: 2 coders, 1 bench
- We will be trying out coders and sending up to 3 teams

# Weekly Meetings

- Will usually be in workshop style
- Sometimes tech talk style
- Mondays from 7:00-9:00pm in  
UUW 325 (tentative)
